Soltis 88

The perfect balance to enjoy only the benefits of sun

Color, Alu or proof, several variations are possible to appreciate the advantages of Soltis 88 in the best conditions.

88 Color & Alu

offers the ideal openness factor so you can fully enjoy the view beyond your windows and the daylight while blocking up to 95% of the solar gains.

■ Design and appearance

the only solar protection screen to offer a pattern as uniform as a woven fabric with the additional advantages of the Précontraint® technology: compact size, lightweight, dimensional stability and strength.

■ Light and thin:

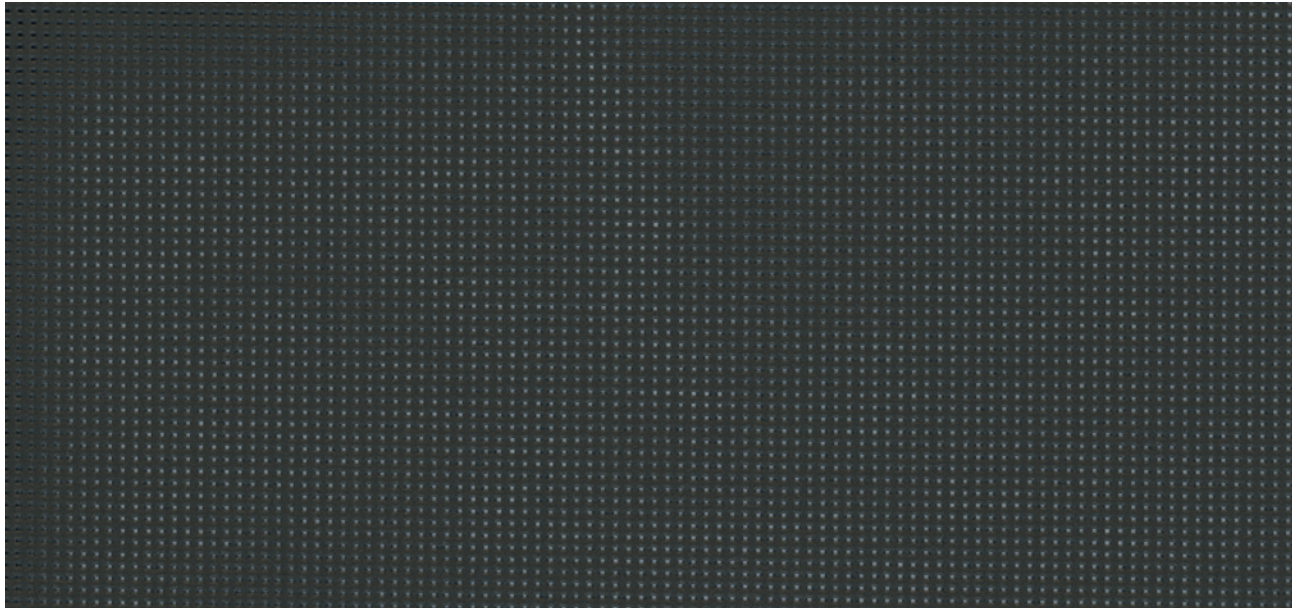

- excellent winding performance
- 100% waterproof
- Translucent to make the most of natural light; up to 21% of light transmission
- High dimensional stability thanks to the Précontraint® technology.

**The ideal balance
for greater comfort**
